

Wednesday, 05/14:

- Due to the large backlog in Sprint 2, we decided as a group to allow everyone to continue to do their Sprint 2 tasks.
- Frontend for Sprint 2 was finished so we decided on a complete frontend website redesign (Designed by Venky & Jackson).
- Everyone was assigned tasks to complete (Mainly the same ones from Sprint 2 with the exception of frontend)

Friday, 05/16:

- Checked in on every group member to see how they were doing with their tasks. They were doing okay, some people got busy with classes so said they'd work on it later in the week rather than the weekend.

Monday, 05/19:

- Another Check in. Tasks in progress.

Wednesday, 05/21:

- Another Check in. Some tasks completed. Some group members couldn't show up but when contacted they said they were doing okay in their tasks.

Friday, 05/23:

- Another Check in. Some tasks completed. Some tasks were known to not be able to be finished & put into the backlog as devs focused attention on other tasks.

Monday, 05/26:

- Another Check in. Most Tasks completed. People were asked to commit changes to Github for peer review. Last Sprint 3 Stand Up Meeting.
